Dewey-
Thanks. From the way the email was written (very alarming!), I assumed it was NOT true.
I appreciate you getting back to me. Any additional information would be great. We're not doing anything with it, just FYI.

Hi [REDACTED]
It is not true. I will try to get you a number later today, but I'm at the city's emergency operations center today because of the water main break. The rabbits have been removed from Woodland and Meridian parks, and all except a couple have undergone their sterilization surgeries. We are in the process of finding permanent homes for them at local sanctuaries.

Dewey

Dewey-
Good afternoon!
I wanted to check on the rabbits @ the Discovery Park chapel. We've received an email talking about how many of the rabbits have died. He says that "dozens" of rabbits have died.

Is there any truth to that rumor? Also, what is the status of the rabbits? Will they be removed into the wild, etc?

Thanks, Dewey.
